PROFESSIONAL SUMMARY

Experienced Software Developer with around 3 years of experience in a demonstrated history of working in the information technology and services industry. Skilled in React, Redux, HTML, CSS, and JavaScript. Also had Implemented tools like ESLint, Prettier, LintStaged, Husky, Vite, Pnpm, etc. in place for maintaining code quality and standards in projects.

SKILLS AND FRAMEWORKS

React, Redux, JavaScript, HTML, CSS, SASS, Github, Bitbucket, Jira, MaterialUi, Bootstrap, ESLint, Prettier, Nodejs, MongoDB, Express, Postman, Netlify.

ACHIEVEMENTS

Awarded as the best employee of the month.

CERTIFICATIONS & COURSES

Full Stack Web Development Course,
Masai School, Bengaluru,
Issued on July 2022.

Post-Graduation Diploma in Computer Application,
MCU University, Bhopal,
Issued on Feb 2020.

EDUCATION

M.Sc., Information Technology,
MPBOU University, Bhopal,
July 2022 - July 2024.

B.Sc., Computer Science,
DAVV University, Indore,
June 2013 - June 2016.

Professional Experience

Software Developer, Q3 Technologies

08/2022 – present || Gurugram, Haryana, India (Hybrid).

- Designed and developed secure & scalable applications (3).
- Trained and mentored 8 junior programmers and developers.
- Participated in project meetings, with technical staff members, business analysts, and external stakeholders.

Berthmaps Project, (Lead Developer)

- Used GraphQL queries and subscriptions (aws-amplify) for real-time data.
- Implemented tracking to track a particular service on the map.
- Build a graphical (recharts) and tabular view of service details popup that contains schedule, crew, and stock details.
- Build a replay screen to review real-time data later.
- Build a user preferences model for user-specific preferences.
- Build a secure dashboard to view train schedules in real time.
- Make UI compatible with mobile, tab, and desktop views.
- Build a map upload screen where admins can upload maps for train services.
- Build a Yard Management screen. Drag & drop user interface for train services and made Real-time CRUD for multiple users.
- Reformed around 70% of applications for better performance and attractive user interface.
- Worked on bitbucket pipeline and git for code maintenance and deployment.

Skills : React.js | Redux.js | Redux-toolkit | GraphQL | Bitbucket | Git | Jira | HTML5 | Material-UI | CSS3 | SASS | ESLint | Prettier | GraphQL | Aws-Amplify | React-Table | React-Virtualization | Media-Queries | Lodash | Redux-Persist | Styled-Components | React-Draggable | React-Dropzone | React-DND | Axios | Recharts.

Sarma Project, (React Developer)

- Build a leave management dashboard for crew/staff. Capable of tracking real-time movements of crew/staff.
- Worked on dynamic sheets (Excel, Word, PDF) for multiple dashboards.
- Build a dynamic crew/stock diagram dashboard as per TOC preferences.
- Build a crew/stock locator dashboard to trace their service locations.
- Build a services dashboard for the daily activities of stocks.

Skills: React.js | Redux.js | Redux-toolkit | GraphQL | Bitbucket | Git | Jira | HTML5 | Material-UI | CSS3 | SASS | ESLint | Vite | Pnpm | Rtk-Query | | React-Table | React-Virtualization | Media-Queries | Excel.js | Docx | React-Csv | Antd.

Software Trainee, Masai School

11/2021 – 07/2022 || Bengaluru, Karnataka, India (Remote).

- Build full-stack web applications on react.js, node.js, and practice data structures & algorithms.

- StoryBook** - a unique storytelling app.
- Chappan App** - a famous food area in Indore city.
- Clone of Sephora** - a famous beauty product-selling website.
- Clone of Pluralsight** - an online learning platform.
- Weather App** - a live weather forecast.

Skills: React.js | Redux.js | Redux-toolkit | HTML5 | CSS3 | Material-UI | Bootstrap | Git | Media-Queries | Node.js | Express.js | MongoDB | Data Structures | Algorithms.
