Skilled in React, Redux, HTML, CSS, and JavaScript. Also had Implemented tools like ESLint, Prettier, LintStaged, Husky, Vite, Pnpm, etc. in place for maintaining code quality and standards in projects.

SKILLS AND FRAMEWORKS

React, Redux, JavaScript, HTML, CSS, Github, Bitbucket, Jira, MaterialUi, Bootstrap, ESLint, Prettier, Nodejs, MongoDB, Express, Postman, Netlify.

LANGUAGES

English, Hindi, Nimari.

CERTIFICATIONS & COURSES

Full Stack Web Development Course,
Masai School, Bengaluru,
Issued on July 2022.

Computer Proficiency Certification Test,
MAP-IT, Bhopal,
Issued on May 2020.

Post-Graduation Diploma in Computer Application,
MCU University, Bhopal,
Issued on Feb 2020.

EDUCATION

M.Sc., Information Technology,
MPBOU University, Bhopal,
July 2022 - July 2024.

B.Sc., Computer Science,
DAVV University, Indore,
June 2013 - June 2016.

Professional Experience

Software Developer, Q3 Technologies

08/2022 – present || Gurugram, Haryana, India (Hybrid).

- Designed and developed secure & scalable applications (2)
- Trained and mentored 6 junior programmers and developers.
- Participated in project meetings, with technical staff members, business analysts, and external stakeholders.

Berthmaps Project, (Lead Developer)

- Used GraphQL queries and subscriptions (aws-amplify) for real-time data.
- Build a replay screen to review real-time data later.
- Build a user preferences model for user-specific preferences.
- Build a secure dashboard to view train schedules in real-time using react-table.
- Build an admin panel for viewing live trains using material-UI.
- Make UI compatible with mobile, tab, and desktop views using media queries.
- Build a map upload screen where admins can upload maps for train services.
- Build a Yard Management screen. Drag & drop user interface for train services using react-DND and made Real-time CRUD for multiple users using GraphQL.
- Build a service details popup that contains schedule, crew, and stock details.
- Reformed around 60% of applications for better performance and attractive user interface.
- Worked on bitbucket pipeline and git for code maintenance and deployment.

Sarma Project, (React Developer)

- Build a leave management dashboard for crew/staff. Capable of tracking real-time movements using rtk-query with web sockets.
- Worked on dynamic sheets (Excel, Word, Trx) for multiple dashboards.
- Build a dynamic crew/stock information generator using Excel file uploads.
- Build a crew/stock locator dashboard to trace their service locations.
- Implemented module pattern approach for separation of concern for the different modules in the application which increased the team efficiency by 65%.

Skills: React.js | Redux.js | Redux-toolkit | GraphQL | Bitbucket | Git | Jira | HTML5 | Material-UI | CSS3 | SASS | ESLint | Prettier | Vite | Pnpm.

Software Trainee, Masai School

11/2021 – 07/2022 || Bengaluru, Karnataka, India (Remote).

- Build web applications on react.js, node.js, and practice data structures & algorithms.

Projects & POCs (Full-Stack Developer)

- StoryBook** - a unique storytelling app.
- Chappan App** - a famous food area in Indore city.
- Clone of Sephora** - a famous beauty product-selling website.
- Clone of Pluralsight** - an online learning platform.
- Weather App** - a live weather forecast.

Skills: React.js | Redux.js | HTML5 | CSS3 | Material-UI | Bootstrap | Git | Node.js | Express.js | MongoDB | Algorithms | Data Structures.
