English, Hindi, Nimari.

Professional Experience

Software Developer, Q3 Technologies

08/2022 – present || Gurugram, Haryana, India (Hybrid).

- Designed and developed secure & scalable applications (2)
- Supervised product testing, reviewed and analyzed test results (2)
- Trained and mentored 6 junior programmers and developers.
- Participated in project meetings, with technical staff members, business analysts, and external stakeholders.

Berthmaps Project, (Lead Developer) (about)

- Used GraphQL queries and subscriptions for real-time data.
- Build a secure and interactive dashboard to view train schedules in real-time using the interactive user interface.
- Developed a Cleaning shed, a drag-and-drop interface where users can create train services by dragging & dropping them in the cleaning shed and can attach/detach units (train coaches) to update/create new train services.
- Reformed around 60% of applications for better performance and attractive user interface.
- Worked on bitbucket pipeline and git for code maintenance and deployment.
- Build an admin panel for viewing live trains.

Sarma Project, (React Developer) (about)

- Build a secure and interactive dashboard to approve and deny leave of crew/staff efficiently in real-time using the interactive user interface.
- Worked on multiple dynamic sheet downloads (Excel, Word, Trx) of different dashboards on a project.
- Collaborations across multiple teams to ensure proper deployment of all components thus providing a CI/CD pipeline of 95% efficiency.
- Implemented module pattern approach for separation of concern for the different modules in the application which increased the team efficiency by 65%.

Skills: React.js | Redux.js | Redux-toolkit | GraphQL | Bitbucket | Git | Jira | HTML5 | Material-UI | CSS3 | SASS | ESLint | Prettier | Vite | Pnpm.

Software Trainee, Masai School

11/2021 – 07/2022 || Bengaluru, Karnataka, India (Remote).

- Build some web applications on react.js & node.js and practice data structures & algorithms daily.

Projects & POCs (Full-Stack Developer)

- StoryBook - a unique storytelling app.
- Chappan App - a famous food area in Indore city.
- Clone of Sephora - a famous beauty product-selling website.
- Clone of Pluralsight - an online learning platform.
- Weather App - a live weather forecast.
- Translator App - translate in a variety of languages.

Skills: React.js | Redux.js | HTML5 | CSS3 | Material-UI | Bootstrap | Git | Node.js | Express.js | MongoDB | Algorithms | Data Structures.
